Cudahy Sportsman Club Update:

The resolution to allow the Gun Club to move south in Warnimont Park came before the full board on July 15. The final vote was seven for the resolution and 11 against, effectively denying the request for a new site in Warnimont.

The Gun Club has the rest of this year to use their current location at Warnimont Park and also to find a new site for the club. Parks Director John Dargle continues to explore alternate, acceptable locations for trap shooting.

Arena and Park East Land Sale Update: "A rose is a rose by any other name"

The Assembly has now passed the arena deal, as did the Senate a few weeks earlier. As of this writing, it awaits the Governor's signature, which is assured. The financing report that I provided in the last newsletter remained virtually the same except that the "bad debt" portion was removed, which in my opinion improved the legislation.

By way of amendment, the County Board of Supervisors were legislated out of any oversight regarding the Park East land "sale" for \$1. While the Economic Development committee was directly involved in June in reviewing the option for the sale, by July the state lawmakers changed state law and gave the authority to the County Executive on land sales with a sign-off by the Comptroller and a real estate expert from the city in which the transaction is taking place. By our July meeting, our committee was advised that oversight on behalf of citizens in Milwaukee had been made moot for the Park East land.

While a lot of euphemisms were used, the share of Milwaukee County's contribution for the debt service on the arena will be \$4 million per year on our tax levy, i.e. property taxes. Property taxes were called "reduced shared revenue" or "debt collection" and other covers for what amounted to a liability put upon Milwaukee County's overburdened property tax. A rose is a rose by any other name is an apt analogy. The end result of reducing state shared revenue by \$4 million or claiming our debt collections each year results in additional responsibilities to be covered by your property taxes. So yes, Milwaukee County's contribution is paid for by the property tax levy.

ADA Celebration at Wil-O-Way

Last Sunday marked the celebration of the 25th Anniversary of the Americans with Disabilities Act at Grant Park Wil-O-Way took place on July 26. Independence First and other support agencies celebrated their first All Abilities Fest. I was pleased to be their keynote speaker and thanked the many folks who helped with the Southridge BUSS project.

Thank You Cudahy Historical Society

The Cudahy Historical Society donated art work depicting the history of Sheridan Park for the newly remodeled pavilion. Pictured is Dan Vnuk donating the Historical Society pictures to Sheridan Friends Barbara Johnson and Colleen Grundy. The Parks Dept. will hang the pictures in the pavilion so that local history is reflected for future users of this park. Thank you Cudahy Historical Society and Sheridan Park Friends.

“SLALOM” KINETIC SCULPTURE NOW ON DISPLAY AT MITCHELL AIRPORT

Artist Tim Prentice installs public artwork in new baggage claim area

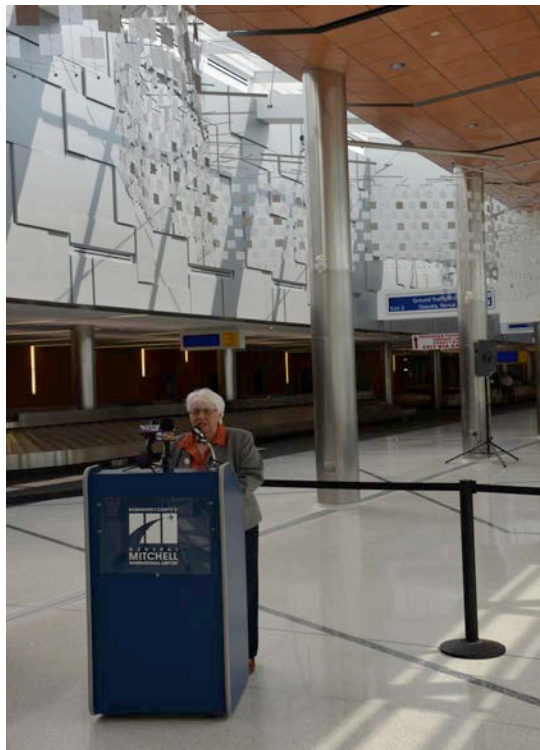

Members of the Milwaukee County Public Art Committee were on hand Wednesday July 8, 2015 to dedicate a new public art display being installed as part of General Mitchell International Airport's Baggage Claim Renovation Project.

Tim Prentice, the kinetic sculptor selected by the Public Art Committee, has completed similar projects around the world and installed his “Slalom” display at Mitchell Airport this week.

“This is a unique opportunity to play with light and achieve an ever-changing sequence of varied and unpredictable effects,” Prentice said. “Movement and changing light will draw the viewer’s attention to the work on display in this beautiful building.”

“Slalom” incorporates a gently undulating ribbon of kinetic elements that floats overhead and weaves its way throughout the building’s support columns. The ribbon is made with a pattern of small aluminum and lexan plates. The materials were chosen based on their ability to hold and reflect light.

“The public art installation in this stunning new building is an exciting addition that will enhance the traveler experience at Mitchell Airport,” said Supervisor Patricia Jursik (pictured below), a member of the Public Art Committee. “I’d like to thank all the members of the Public Art Committee for helping us throughout the artist selection process.”

GMIA Airfield Update Newsletter

July 2015

Thank you for your interest in the latest edition of the General Mitchell International Airport (GMIA) Airfield Update. This newsletter is intended to keep you up-to-date on airfield construction projects and regular maintenance that could impact the standard flow of air traffic arriving and departing from Mitchell Airport.

A variety of airfield projects are either ending or starting this month, which could result in increased or decreased noise in surrounding neighborhoods. The main east-west runway, 7R/25L, is back open as the primary commercial service runway. Work is shifting to the north-south runway, 1L/19R, which will be closed for three weeks beginning in mid-August.

Runway 13/31 will be closed for pavement replacement and rehabilitation from early August through September. Runway 7L/25R, a general aviation runway not used by large jets, will also be closed during this project.

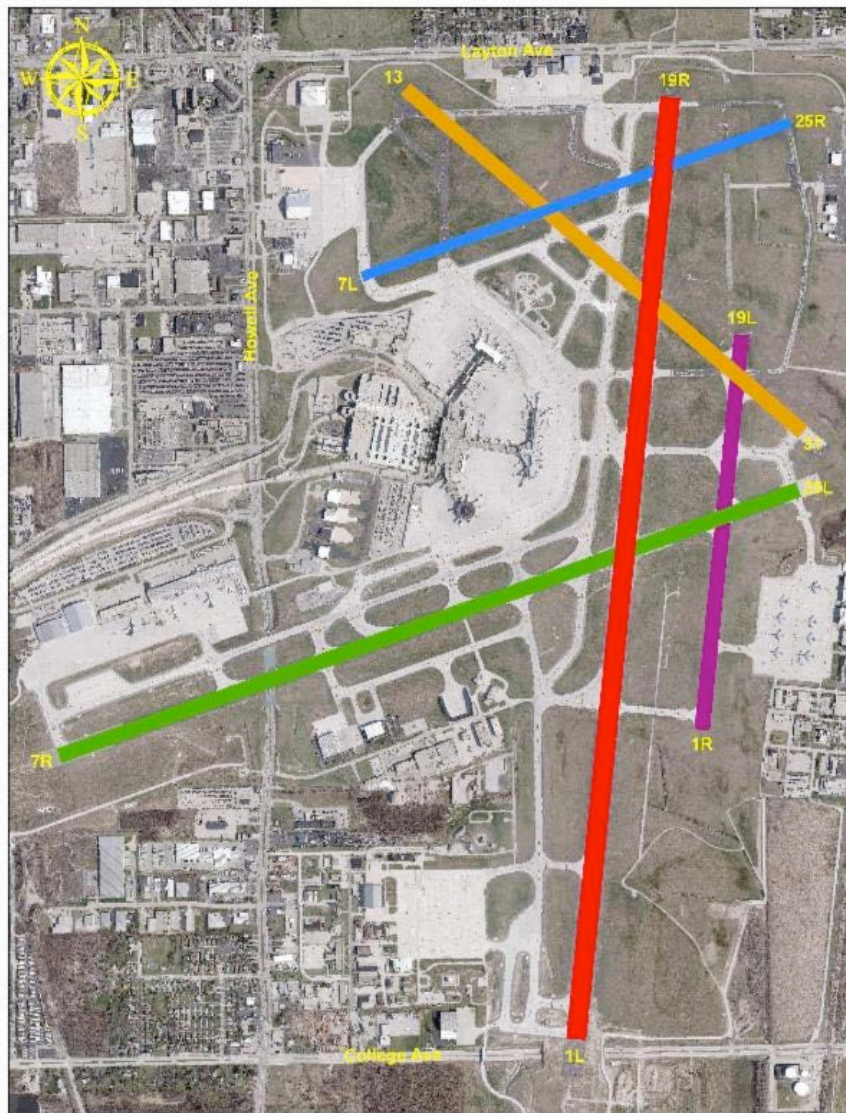

On August 10, the Ground Run-up Enclosure (GRE), will close for concrete panel replacement. The GRE is an 80,000 sq. ft. facility used for aircraft engine run-ups and testing. The structure contains sound absorbing panels to help reduce aircraft noise. Alternate run-up locations have been selected to minimize the impact on surrounding neighborhoods during the GRE closure. [Click here](#) if you're interested in learning more about the GRE.

Lawrence J. Timmerman Airport, a general aviation airport located on Milwaukee's northwest side, is also undergoing airfield construction. Runway 4L/22R is closed through mid-August. Timmerman is currently experiencing some increased air traffic, including more jets, due to runway construction closures at nearby airports. The longest of Timmerman's runways is remaining open to accommodate this extra air traffic.

The Baggage Claim Renovation Project is now complete, and the roadways are back to their original configuration. Be sure to check out this stunning new building and the beautiful art installation hanging from the ceiling!

Thank you for your interest in the activities of GMIA. If you are not subscribed, please click the "Join Our Mailing List" button at the end of this newsletter. Please share with your neighbors - perhaps they would like to join this mailing list, too.

Enjoy a great Milwaukee summer!

768-8045

Congratulations to senior center member **Ralph Windler** for being featured in the article entitled "Profiles in Courage" in the July 2015 issue of *Milwaukee Magazine*. The magazine states that the number of surviving Wisconsin World War II veterans is estimated at about 16,000. With their demise go their proud and spellbinding stories.

The article features these stories of seven World War II veterans. Ralph highlighted events that happened to him while serving in the U.S. Army. The conclusion of the article states that Ralph returned to Milwaukee a week before Thanksgiving 1945 with three Purple Hearts and a Bronze Star for heroic achievement.

A copy of the article is located on the bulletin board in the main hall.

Thank you Ralph, and every other veteran, for serving in the Armed Forces.
